## Explanation of Self-Pay Service Fees

Physicians Now Urgent Care Center (PNUCC) understands that illness or injuries are unplanned and sometimes may occur during difficult economic times. For this reason, PNUCC offers a 25% discount off our regular fees to un-insured patients.

Below is an example of the discounted fee.

<b>Medical consultation fee</b>	<b>Reg. Charge</b>	<b>25% off</b>	<b>You pay</b>
Consultation with our health care provider starts at: Basic	\$200.00	\$50.00	\$150.00
Level 4 visit: high medical complexity	\$250.00	\$62.50	\$187.50
Level 5 visit: higher medical complexity	\$320.00	\$80.00	\$240.00
Critical care visit: highest medical complexity	\$500.00	\$125.00	\$375.00

Labs, X-rays, supplies, medications, and/or procedures are also discounted at 25% from the regular charges. Please note because it is difficult to accurately estimate the exact charges of our services prior to being examined by our health care provider, the best estimate is obtained after the evaluation by our health care provider. For this reason, you will be apprised of any potential change(s) in levels of care for your consent, before treatment commences, except in life or organ threatening conditions where stabilizing the patient is our utmost priority.

- Consultation fees are non-refundable.
- All charges are due at the time of service.
- In rare instances you may receive an additional bill after your visit if the billing department discovers any of the following after your visit while processing your chart:
  - Omitted supplies or procedures – improperly billed level of care
  - Other circumstances not mentioned herein
- We will process a refund if we discover that you were accidentally overcharged for your visit.
- Overdue accounts will be assessed a monthly finance charge of 3% of the balance.

\*Exclusions: Some high-risk medical conditions start at level 4 consultation fee even if no labs, x-ray or treatments are performed at the time of service. This is because they require in-depth evaluation and/or higher level of medical decision making. Examples of such visits, although not an all-inclusive list are:

- Motor vehicle accidents, fall from heights, head injuries, headaches, asthma attacks, chest pains, abdominal pains, GI bleed, vaginal bleed, shortness of breath, palpitations, dizziness, std testing, etc.

I have read, understand, and agree to PNUCC self-pay policy.
